

Speak Now

Socialburn

Speak now or forever hold your peace life's too short so would
you walk with me you're too scared to say what you need from me
when I need you to speak
Now or forever hold your arms around me I can see the sun but i
t's fading out it's fading out it's fading
When you swore that you would change so
What happens now is what happens now and I swore I'd rearrange
and make time for us have we lost all trust speak now or foreve
r hold your tongue when your
Mouth is dry my bodies numb your too scared to say what you nee
d from me when I need you to speak now or forever hold your arm
s around me I can see the
Sun but it's fading out its fading out its fading out
