

# Christ Passion

Sodom

We praise the saviour  
Observe the ten commandments  
Confess our sins

For time immorial  
Man's mind gets inspired  
By gift and faculty divine

Blind superstition  
Religious liberty  
Mitigate our sorrows

Living in a world of dreams  
Don't fear the true  
Image of a God

Infant Jesus was crucified  
A memorial for our future  
Our atrocity is now forgiven  
Because he has done his penance

Hear me people of sighing  
Sorrow of pain and regret  
Left to the dead and dying  
You, that not know me as yet

Christ passion

Mediaeval extravagance of Christianity  
Foundation in all cultmysteries  
Holy customs and wholesale hysteria  
Creeds to transcendental

Defecation of human nature  
Devour them up with blindness  
They are fool adore in all clergy  
And mindful in the grace of god

Christ passion

Mortal way of life  
Rapture of the earth  
Lift up your heads  
In the day of his wrath

In the worst hour of life  
Looking into the eyes of death  
Extreme unction nears  
Intensive incense is befooled

He gives you unimaginable joy  
Certainty and faith  
To find unutterable peace  
Demand no sacrifice

Christ passion

Expect no wonders celestial child  
He will behold your repentance  
His prophet revealed to the wise  
The great mystery of god

Persecution of Christians in blasphemy  
Born by the scum of evil  
Almighty father knows no thirst for revenge  
Praise the saviour on all saints' day
