Let's die tonight you know I'm right I've got the feeling strong enough to break 10,000 souls apart I'm injecting my life into your veins no experience to strong this pain! pain in life cuts like a knife open the book of empty pages what do you see?

I'm the master of pain
waiting in vain
my pride is slain
watch me die during a sadistic lullabye!

A gathering of long lost souls are carrying my memories written in the name of pain I love to hear their veins screaming for more vengeance is the law exploding music you can't catch time, it doesn't exist life's a sculpture that can't resist!

I'm the master of pain waiting in vain my pride is slain watch me die during a sadistic lullabye!

Engaged with destiny my life is yours but you don't know me we bleed together like an ever flowing stream with souls so black oh so empty!

Sadistic Lullabye!!
