

## Roses

SoMo

I remember walking back from the bar, we were like 21  
There was no live scene  
Just a mic, screen, and a little buzz  
You were so lightning  
Think I might be in a little love  
There you said it first  
And I'm pretty sure you were a little drunk

I was just a college kid, what did you expect?  
Rocket ships take off and there's no turning back  
Hands on that line, no apologies  
Stupid kids in love  
Why did you follow me?

Hooked me on your line when you came  
When I saw your light  
Gave me life, all the way  
Oooh, you're my type  
Take the flight all the way, oh whoa  
Now I got you here right beside me  
Think I might, think I might wife thee  
Love me all the time, all life, please  
Try me, try, oh

Now, I remember walking back from the bus  
I was like 25  
It's a lot quieter when your backstage, in a little light  
I just played my biggest show  
Right before that we had our biggest fight  
How can dreams end when the other dreams feel so alive?

I was just a young man, what did you expect?  
Rocket ships take off and there's no turning back  
Hands on that line, no apologies  
Stupid kids in love  
Why did you follow me?

Hooked me on your line when you came  
When I saw your light  
Gave me life, all the way  
Oooh, you're my type  
Take the flight all the way, oh whoa  
Now I got you here right beside me  
Think I might, think I might wife thee  
Love me all the time, all life, please  
Try me, try, oh

I'd climb a mountain  
I'd mine the fields  
Go through hell  
I'll sign the deal  
For all time that's how I feel, oh  
I'd cross the ocean  
I'd plant the seed  
Dive down the well  
So you could see  
For all time it's you and me, oh

I planted 8 rose bushes in my garden  
Think I found you  
Think it's starting  
Point, blank, boom, you're where my heart is  
Think I found you  
Think it's starting  
I planted 8 rose bushes in my garden  
Think I found you  
Think it's starting  
Point, blank, boom, you're where my heart is  
Think I found you  
Think it's starting

10 years, been 10 years, magic  
If we let it go, that'd be tragic  
Believe in love, believe in us, that's it  
100 years, 1000 years, galactic
