

Seawall

Son Volt

Hell untold is the price paid down on living
Tears have changed the way the days unfold

There's a gulf that flows between
And the sea was wearing down

Two honky tonk angels
Still walked this ground
Two honky tonk angels
Still walked this ground

The answer lies on the unseen side of heaven
The melody holds sway, the songs unsung

There's a gulf that flows between
And the sea was wearing down

God save the queen of Charleston, West Virginia
God save the queen of Kingman, Arizona

There's a gulf that flows between
And the sea was wearing down

There's a gulf that flows between
And the sea was wearing down
