You are the reason why I despise the world  
But still, you're the only reason why I'm still in it  
Time never healed my wounds  
It just made them more infected  
They talk about their heartache  
But I got a fucking heart attack

I can't reach my mind  
I can't reach my heart  
Why can't I leave you behind  
Never have a choice  
Never feel rejoice  
I damn my inner voice

And when two rivers run together,  
they can never be distinct again  
Locked in a dream  
to filter out your polluted stream

And when two rivers run together,  
they can never be distinct again  
Locked in a dream  
to filter out your polluted stream

Every time I talk with you,  
I never have a choice  
Every time I try to sew my wounds,  
You stretch them wide open

Time never washed my brain  
It just made it more infested  
I will break out of this mind prison  
I will break out!

I can't reach my mind  
I can't reach my heart  
Why can't I leave you behind  
Never have a choice  
Never feel rejoice  
I damn my inner voice

And when two rivers run together,  
they can never be distinct again  
Locked in a dream  
to filter out your polluted stream

And when two rivers run together,  
they can never be distinct again  
Locked in a dream  
to filter out your polluted stream

Every time I talk with you,  
I never have a choice  
Every time I try to sew my wounds,  
You stretch them wide open

And when two rivers run together,

they can never be distinct again  
Locked in a dream  
to filter out your polluted stream

And when two rivers run together,  
they can never be distinct again  
Locked in a dream  
to filter out your polluted stream
