

Love Me Like There's No Tomorrow

Sonny James

Love me like there's no tomorrow
Kiss me like it's goin' out of style
Hold me like you're afraid I might get away
Love like I've been gone for quite a while

Take and wrap me in the package
My future my presence and my past
And love me like there's no tomorrow
And each day might be our last

Love me like there's no tomorrow
Kiss me like it's goin' out of style
Hold me like you're afraid I might get away
Love like I've been gone for quite a while

Make each night one more remembered
We will let the heaven be our guide
Just love me like there's no tomorrow
And keep me right by your side
Keep me right by your side
