Revolution

Sophie Ellis-Bextor

Get on the revolution Get on the revolution

Bang bang! It's a hold up You about to give it up In the boot they're slippin' up We've been patient long enough ('nough) It's a hold up Rebels gonna play it tough Wreck the deck and needle off Shut it down and turn it off

Face to face It's murder on the dance floor Cut to the chase Just give us what we came for

Get on the revolution Get on the revolution Get on the revolution (Wreck this club tonight) Get on the revolution Get on the revolution (Wreck this club tonight)

Own me, own me, own me, own me, own me (Wreck this club tonight) Own me, own me, own me, own me, own me (Wreck this club tonight)

Bang bang! In the club crowd Better off or down and bow Chaos holding - what a wow! Tearing up the sound now Ow! Shout it out loud Now we're warming up the ground Rip the deck and needle up Shut it down and turn it off

Face to face It's murder on the dancefloor Cut to the chase Just give us what we came for

Get on the revolution Get on the revolution Get on the revolution (Wreck this club tonight) Get on the revolution Get on the revolution (Wreck this club tonight) Own me, own me, own me, own me, own me (Wreck this club tonight) Own me, own me, own me, own me, own me (Wreck this club tonight)

Bang bang it's a hold up Bang bang it's a hold up

Get on the revolution Get on the revolution Get on the revolution (Wreck this club tonight) Get on the revolution Get on the revolution (Wreck this club tonight)

Own me, own me, own me, own me, own me, own me (Wreck this club tonight) Own me, own me, own me, own me, own me (Wreck this club tonight)
