

Heartbroken Reaper

Soul Embraced

The way they found you
Made this dark angel weep
He knew you had so much more life to live
Reduced to bones
In a trash bag memorial
With a duct tape silencer
Sealed with a heart

Death every day of life
But why this child
We're searching only to find
Demons walking among us
Destroying what we love
Just to kill is never enough

Gathering what's left of you
Is a heartbroken reaper
Putting you back together
Drives his pain deeper
But in his heart he knows
You'll be in heaven tonight
With God above forever in his loving light

Death every day of life
But why this child
We're searching only to find
Demons walking among us
Destroying what we love
Just to kill is never enough

???

Death every day of life
But why this child
We're searching only to find
Demons walking among us
Destroying what we love
Just to kill is never enough
