

Girl, I want you bad
What you expect me to feel?
Best love I ever had
The kind that helps me to heal
Girl, don't make me mad
Thinking this love isn't real

I know how you feel so good
If you had your way
You'd be with me every single day
Girl, you'll never want to let me go

Girl, I want you bad
And I want you right now
I know you feel so sad
Thinking you lost me somehow
I'll make you so glad
The most that love will allow

I know how you feel so good
If you had your way
You'd be with me every single day
Girl, you'll never want to let me go

Girl, I want you bad
What you expect me to feel?
Best love I ever had
The kind that helps me to heal
Girl, don't make me mad
Thinking this love isn't real

I know how you feel so good
If you had your way
You'd be with me every single day
Girl, you'll never want to let me go

I know how you feel so good
If you had your way
You'd be with me every single day
Girl, you'll never want to let me go
