Overfloater

Soundgarden

Come on in and take me on an override Been stuck inside and up all night at Dave's Now trouble's far away, and mother in her cage And nothing's gonna pinch this nerve of mine

I wanna make it right

Close the door and pull the shades And climb the walls Feel medicine heal the lines of age I'm here nd now I'm gone I'm there and far beyond And nothing's gonna pinch this nerve of mine Nothing gonna pinch this nerve of mine

I wanna make it right

I'm on the wire over and higher Over the pretence over the spire why On and connected I'm overfloating now I'm overfloating alone

Hold the potion up Tear your shadow down Remember to forget and then rename the shame

I wanna make it right

I'm on the wire over and higher Over the pretence over the spire why On and connected I'm overfloating now I'm overfloating alone
