Falling Down

Space Cowboy

Down down down down down
Everybody falling
Down down down down down
And they falling
Ey ey ey cherry cherry boom boom
Red One (red one) space Cowboy

I close my eyes
I put my back against the wall
Put my glasses on
And I don't see no one at all
I'm in my own world
And all I can see is girls girls girls in the club
in my rollin'
Boys boys boys at the bar in my party
Popping champaign to the early morning
2 AM, then a cab them are callin'
To the next spot where they drop and they falllin'

Down down down down down
Everybody falling
Down down down down down
and they falling
Down down down down down
Everybody falling
Down down down down down
and they falling
(Down)

This is my life
And people try to shoot me down
Put my music on
And those people don't make a sound
I'm in my own world
And all I can see is girls girls girls
In the clothes them are wearin'
Boys boys boys at the bar
them are staring
Every hot girl on the floor them are tearing
On the dance floor while the dj's spinnin'
Lining up the shots 'til they drop and they fallin'

Down down down down down
Everbody falling
Down down down down down
And they fallin'
Down down down down down
Everbody falling
Down down down down down
And they fallin'

Down down dee down down down down down down
Down down dee down down down down

Follow me lets go downtown
Follow me lets go downtown
Follow me lets go downtown

Follow me follow me

Let's go
We're so robotic, electronic, melodic, exotic
We like to party with Bacardi then we dance erotic
And we're out here on the dance floor havin' fun
And we ain't stopping We keep dropping
'til we see the sun

Up comes the sun
Up comes the sun
Up comes the sun
Up comes the sun

Down down down down down
Everybody falling
Down down down down down
Everybody's falling
Down down down down down
Everybody falling
Down down down down down
And they falling down

Let's go
We're so robotic, electronic, melodic, exotic
We like to party with Bacardi then we dance erotic
