

# Invisible

## Space Cowboy

She'll make you feel invisible  
she'll make you feel like you're  
not in the room at all  
she'll make your heart just  
disappear  
she'll make you feel like you're  
nothing at all to her

And anything you just said is  
forgotten anyway  
and any romantic gesture is  
just just shot away  
and I don't know why I do it  
but do it anyway

guess I'm a glutton for  
punishment just to runaway

I-N-V-I-S-I am invisible

She'll make you feel incredible  
she'll make a mark line  
indelible ink on you  
she'll make you dream a  
thousand dreams

But when you wake up you're  
waking up by yourself  
and now you feel like a fool for  
texting her everyday  
reading back my messages  
and believing what she say  
why does she say the things  
she say if she really don't  
mean it  
if there's a glimmer of hope  
you know you can't believe it

I-N-V-I-S-I am invisible

like a magician  
she wishin' that I would  
disappear  
but when I do  
all she wants me to do is  
re-appear  
and I can't take it no more  
so baby I'm outta here  
and now my bottles are empty  
so now my head is clear

I-N-V-I-S-I am invisible
