Just Because You Love Me

Sparks

Baby, baby, baby, give it to me, give it to me
Baby, baby, baby, give it to me, give it now
Is that all I get, is that all I get now

Just because you love me
Just because you love me
Just because you love me
Just because you love me

Baby, baby, baby, give it to me, give it to me
Baby, baby, baby, give it to me, give it to me
I'm not that quick, this is ridiculous

Just because you love me
Just because you love me

It's common courtesy
Don't be a nurse to me
You save your worst for me

Just because you love me
Just because you love me
Just because you love me
Just because you love me
Just because you love me

Baby, baby, baby, level with me, level with me
Baby, baby, baby, level with me, level with me
What should I do when you say no

Just because you love me
Just because you love me

It's common courtesy
Don't be a nurse to me
You save your worst for me

Just because you love me
Just because you love me
Just because you love me
...
