It started on a Tuesday It must have been that lunch meat I haven't been intimate And anyway, I'm careful We know what you got, boy We know what you got, boy We know what you got, boy They call it the Willys They call it the Willys You shiver and shake You're doin' Swan Lake All over the place Has everyone gone Christian? Well, glory, hallelujah But I'm beyond salvation I haven't got a prayer The Willy's do this to ya The Willy's do this to ya The Willy's do this to ya, to ya They call it the Willys They call it the Willys It's hard to explain Like Citizen Kane To someone who's blind They call it the Willys They call it the Willys You shiver and shake You're doin' Swan Lake All over the place, Willy now We know what you got, boy We know what you got, boy We know what you got, boy Physically, physically, I'm splendid Mentally, mentally, I'm splendid Morally, morally he is lax And maybe that's the problem We know what you got, boy We know what you got, boy We know what you got, boy, what you got They call it the Willys They call it the Willys You shiver and shake You're doin' Swan Lake

All over the place

They call it the Willys
