In the Mouth of Madness Lyrics Hey there, would you like to ride On the best event since suicide Hey, people come and board the train Come anesthetize your frazzled brain Hey you, Mister fancy pants Don't play it safe - come take a chance Hey, Mrs. I don't really care Come along with us, there's room to spare Come fill your heart with gladness We've got no sense - no sadness Here in the mouth of madness Hey, Mister, don't you walk away Why save yourself for a rainy day? If you miss it you will fall behind Don't think too much - just lose your mind You'll be a Gypsy man You'll have no sense - no sadness Here in the mouth of madness You've got no self control Come be the first to shout it, NOW! We're gonna make you whole! Hey there would you like to ride On the best event since suicide Hey, people come and board the train Come anesthetize your frazzled brain Hey! this is your last chance To lose control and live the dance Hey, people we're about to go Don't fill the crowd be in the show You've got no self control Now you don't feel sadness You're in the mouth of madness You be a Gypsy man You've got no sense - no sadness You're in the mouth of madness
