## **Kill Your Idols**

Cosmetic photogenic This pain is fleeting, ring out Mechanical the passion Your head is bleeding, slow down

Can't keep doing this What you want me to Marching sheep herd said See my broken head

Live your own life I got myself Out of my sight Kill your idols

It's ugly, you see I don't care what you think now Forgive me, forget Don't take the east way out

Can't keep doing this What you want me to Marching sheep herd said See my broken head

Live your own life I got myself Out of my sight Kill your idols
