

# The Enemy

Static-X

Confines me its all that i see  
Sickness keeps you following me  
Keep it inside, all that is sharp  
Hold it inside, all that is dark

Tear  
I'll shut you up

Down, down, down  
I'll destroy you  
Kill or be killed  
Down, down, down  
You've become the enemy  
Enemy

I thank you for making me feel  
Make me feel like i want to kill you show me you're evil inside  
Now won't you just curl up and die

Tear  
I'll shut you up

Down, down, down  
I'll destroy you  
Kill or be killed  
Down, down, down  
You've become the enemy  
Enemy

You make me  
You make me hate  
You make me  
You make me hate you
