Confines me its all that i see Sickness keeps you following me Keep it inside, all that is sharp Hold it inside, all that is dark

Tear
I'll shut you up

Down, down, down
I'll destroy you
Kill or be killed
Down, down, down
You've become the enemy
Enemy

I thank you for making me feel Make me feel like i want to kill you show me you're evil inside Now won't you just curl up and die

Tear
I'll shut you up

Down, down, down
I'll destroy you
Kill or be killed
Down, down, down
You've become the enemy
Enemy

You make me hate
You make me
You make me
You make me hate you
