

# Any Way You Like It

## Status Quo

Any way you like it  
is the way it's gonna be  
Any way you like it  
that's a guarantee

I've had my way so many times  
I always got to choose  
for me to win this loving game  
I always had to lose  
now it's black and white, night and day  
and it's always up to you

Any way you like it  
is the way it's gonna be  
Any way you like it  
that's a guarantee

You set it up  
you make the rules  
You've got the final say  
and what you say is cool

Any way you like it  
is the way it's gonna be  
Any way you like it  
that's a guarantee

I mend your will into my own  
and see my way to go  
I've no desire to compromise  
but these days I just don't know  
I've fallen for the star return  
She that runs the show

Any way you like it  
the way it's gonna be  
Any way you like it  
that's a guarantee

You make the place  
you place the bets  
You get to roll the dice  
and it sure isn't it

Any way you like it  
the way it's gonna be  
Any way you like it  
that's a guarantee

Any way you like it  
Any way you like it  
Any way you like it  
Any way you like it fade
