

Coming and Going

Status Quo

Let me know what I want to know
If you really want me don't you let me go

And let me see what I want to see
Move in my direction, move in close to me

I see you here, I see you there
And when I close my eyes I feel you everywhere

So let me give what I want to give
Got my own way of showing how I want to live

Coming and going and highing and lowing
Baby I'm trying to tell you I love you
