

# Lost My Way

Steel Prophet

I see bright lights in my head  
Dream that I am falling down  
All my past insanity  
Is breaking all around

Seems to me time is running out  
Lost on the road how to get back  
I've lost my way

Age progression fills my head  
It's images of you  
We tried to make a life together  
But you were not true

Seems to me time is running out  
Lost on the road I feel the pain  
I gave you all I had  
Tell me why you looked the other way

Mistress of insanity  
Shackle me to you  
Remember all the pain  
We shared together  
It felt so good

Seems to me time is running out  
Lost on the road how to get back  
I've lost my way, I gave you all I had  
Tell me why you looked the other way

Come on my queen don't let me be, no no no  
I've tumbled and fallen without a dream  
I feel the shame such lonely pain forever  
Keep taking my blood I'm fading away

Lost my way, oh want you stay

Come on my queen don't let me be, no no no  
Lost on the road oh can't you see  
I feel the pain, such lovely pain forever  
Keep taking my blood I'm fading my way
