

Downtown

Stereo Skyline

(yeah yeah girl that's what I'm gonna do)

Girl maybe I made this just a little bit
harder than it has to be, but you'll see that one day
Just don't spin me around,
please don't mess me around again.

Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
watching old movies, thinking I should be with you
yeah girl that's what I'm gonna do.

Your friends say don't sweat it don't let her
get into your head again but maybe, yeah one day
just don't spin me around please don't mess me around again.

'Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
watching old movies, thinking I should be with you
yeah girl that's what I'm gonna do

Cause she knocks the socks off my feet
she's hot like a fever of one-oh-three
she turns my frown upside down.

'Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
watching old movies, thinking I should be with you
yeah girl that's what I'm gonna do

'Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
watching old movies, thinking I should be with you
girl that's what I'm gonna do
yeah girl that's what I'm gonna do
