(yeah yeah girl that's what I'm gonna do)

Girl maybe I made this just a little bit harder than it has to be, but you'll see that one day Just don't spin me around, please don't mess me around again.

Cause I've been making my way downtown to your window Staying up late on the phone talking real low watching old movies, thinking I should be with you yeah girl that's what I'm gonna do.

Your friends say don't sweat it don't let her get into your head again but maybe, yeah one day just don't spin me around please don't mess me around again.

'Cause I've been making my way downtown to your window Staying up late on the phone talking real low watching old movies, thinking I should be with you yeah girl that's what I'm gonna do

Cause she knocks the socks off my feet she's hot like a fever of one-oh-three she turns my frown upside down.

'Cause I've been making my way downtown to your window Staying up late on the phone talking real low watching old movies, thinking I should be with you yeah girl that's what I'm gonna do

'Cause I've been making my way downtown to your window Staying up late on the phone talking real low watching old movies, thinking I should be with you girl that's what I'm gonna do yeah girl that's what I'm gonna do
