

Stars Don't Shine

Steve Aoki

Summer nights, bottles on ice
Everyone around hanging out by the campfire
Living life, feeling so right
I don't want this night to end, yeah
Run it up, run it up, 'til we runnin' out (We runnin' out)
'Cause enough's not enough, gotta let it out
Never growing old enough
Don't pretend to know too much

Take me far away from here
Where it's cold outside and the sun don't shine
Just take me far away to somewhere I can free my mind
All the rules don't apply out here
Whoa, whoa
It's the sweet escape that we're waiting for
Whoa, whoa
Party 'til the stars don't shine here

Whoa, whoa
Party 'til the stars don't shine here
Party 'til the stars don't shine here

Gonna light it up, we gon' celebrate
Pull the cameras out, start rollin'
Tonight we gonna make us a moment
Whoa
If anybody doesn't hear from me
It's only 'cause I'm gone and I don't need saving
It's like they never wanna let you free
You just gotta break away, doesn't matter what they say now

Take me far away from here
Where it's cold outside and the sun don't shine
Just take me far away to somewhere I can free my mind
All the rules don't apply out here
Whoa, whoa
It's the sweet escape that we're waiting for
Whoa, whoa
Party 'til the stars don't shine here

Whoa, whoa
Party 'til the stars don't shine here
Party 'til the stars don't shine here
