

Friends of Mine

Steve Perry

Acting like a movie star
Swimming pools and fancy cars
It doesn't matter who you are
You can't buy friends with caviar

We're standing face to face
A different time, a different place
From the move, been together so long
It's for you I sing this song

Whoa

I thought that I could hide away
But the lonely walls kept closing in
I only came back to say
Life ain't nothin' without a friend

We're standing face to face
A different time, a different place
From the move, been together so long
It's for you I sing this song

If we're standing face to face
A different time, a different place
From the move, been together so long
It's for you I sing this song
