

In The Rain

Steve Perry

I wish you were here tonight
Sittin' here beside me
I wish you were here tonight
And still you've got me, even though you're gone

I wish you could see tonight
All those faces chasin' shadows
Now, here in the dark
Am I losing you again?

Our hope was lost once before
Now I'm just a dream, I'm lost in you

I believe we were flying, did not know you were crying
I believe love's dying, tell me why we're standing again
In the rain
(In the rain)

Your face in a photograph
Starin' back inside a lens
Pretending you're here tonight
Yeah, you got me chasin' shadows

Here, here in my mind
Am I losing you again?
Oh deep, so deep in my heart
I'm your nighttime dreamer, I'll reach for you

I believe we were flying, did not know you were crying
I believe love's dying, tell me why we're standing again
In the rain
(In the rain)
(In the rain)
Tell me why we're standing again
In the rain
