

You Didn't Break it

Steve Vai

You didn't break it
You didn't break it
You didn't break my heart when you split
You only cracked it just a bit

Somethin's changed
Though I know my heart ain't plastic
I guess through the years it's grown
A little more elastic

'Cause this time cryin' time
Didn't last as long
And my heart just needed minor repairs
And it feels pretty strong
(Feels pretty strong)
And it's movin' right along

You didn't break it
You didn't break it
You didn't break my heart when you split
You only cracked it just a bit

You didn't break it
You didn't break it
You didn't break it
You didn't break my heart

Losin' love, it used to crush me
Now it doesn't
I just figured it was meant to be
Or it wasn't

So if you wanna know
Now that you're gone, the shape I'm in
You never clipped the wings of my heart
It's gonna fly again.

You didn't break it
You didn't break it
You didn't break my heart when you split
You only cracked it just a bit

You didn't break it
You didn't break it
You didn't break it
You didn't break my heart

I got somethin' that keeps me goin'
I got a habit of comin' around, honey
You didn't run me off the highway
You only slowed me down
