

Only a Man

Stevie Stone

I traveled the way from home
Left the streets that I used to roll
I found to be the one
To help us overcome
All the problems that we face
I used to see everyday
Took me years to understand
I'm only a man
I'm only a man
I'm only a man
I'm only a man

A crash course with a tour guide
I got a load coming do or die
Stay traveling explore mine
I been around I'm your guy
Size 12 not a joy ride
And there's a lot up on my shoulders, gotta risk it
Money low circulating old mistakes
I been thinking to myself on how much this could make
Put a couple plates together cop myself a mixed plate
But my position is the backbone
Cherish moments when I'm at home
And that's a fact known
And yet ill still be in that zone
A lot of money need a vacuum
That be the wrong idea, that's just that way life is
And ain't no justifying me and feeding my kids
Any means gotta get it how I live

I traveled the way from home
Left the streets that I used to roll
I found to be the one
To help us overcome
All the problems that we face
I used to see everyday
Took me years to understand
I'm only a man
I'm only a man
I'm only a man
I'm only a man

I'm held accountable for who surrounding me
Whos valuable, who gon fall in formality
How many confide call and count in me
Come around when its hassle free
Who on this side blasting and who classify as a mal tv
I wanted to be the superhero
Face it people we see as leaders equal to evil
As a I lead I'm wishing this free to pushing the needle
I've taken the fall, I pray to Jesus we see the result
It's easy to dial the plugs number quick
Meet the suppliers pile the drugs into my trunk and dip
Every sit with the law then you never saw fucking shit
It's too much to do on a slum bucket list
I'm strayed on the thrills of my older ways
When the weight of the world's on my shoulder blades

Luggage on a tour bus for 40 days
Frustrated save it for the stage

I traveled the way from home
Left the streets that I used to roll
I found to be the one
To help us overcome
All the problems that we face
I used to see everyday
Took me years to understand
I'm only a man
I'm only a man
I'm only a man
I'm only a man
