

The War Inside

Stick to Your Guns

Settle the struggle
by the way turn your back
And take the next step
Another level, this is more than a war
This is every single breath
Embrace the damage
You have to walk this path alone!
Fight a new war, destroy and rebuild
Your fight is your own!

It's what we are, it's all we give
It's all we have, we brave the wind
It's your life, it's your fight
It's the war inside!
Hey! Hey! Hey! Hey!
Woah-ohoh-oh, It's the war inside!
Hey! Hey! Hey! Hey!
Woah-ohoh-oh the war inside!

The weight is a toll, hammer down the head
That doesn't control you!
It's what you do, you turn around
There's no going back to the old you
Use the pain!
Let it be the voice that drives you
Everyday!
You're left to decide
Survive the fight or defeat the war inside!

It's what we are, it's all we give
It's all we have, we brave the wind
It's your life, it's your fight
It's the war inside!

It's what we are, it's all we give
It's all we have, we brave the wind
It's your life, it's your fight
It's the war inside!

Find the strength, pull the pin
Find the strength, pull the pin
Find the strength, pull the pin
You can be what you want to!
No-one has known what you've had to go through
And with the pressure to be truly free
No muthafucker will ever hurt me!

It's what we are, it's all we give
It's all we have, we brave the wind
It's your life, it's your fight
It's the war inside!

It's what we are, it's all we give
It's all we have, we brave the wind
It's your life, it's your fight
It's the war inside!

Hey! Hey! Hey! Hey!
Woah-ohoh-oh it's the war inside!
Hey! Hey! Hey! Hey!
Woah-ohoh-oh the war inside!
