

# Dance with the Witches

Stormwitch

You know the story goes  
Like worms we crawl out of the ground  
They say we'll bring the pest  
On this you can count

The devil is honouring us  
In magical mystical nights  
He turns us around and around  
We're bound to his dark gloomy nights

Come and dance with the witches  
Don't spare no pains get rid of your fear  
Come and dance with the witches  
Close season is over the witches are near

It's right we're sly and cruel  
We come at night and steal your best off all  
At least your innocence  
And no one hears your call

The devil...

Come and...
