

## Choosey Susie

The Stranglers

Come on little baby let me take you out of your mind  
Little choosey Susie, there's no reason to fall behind  
You and me, we're gonna be free  
We're gonna make love until we're weak  
Yeah, believe you me, choosey Susie

There's an awful lot of stars but there are more that we don't  
see  
Little choosey Susie help me find eternity  
You and me, we're gonna be free  
We're gonna make love until you bleed  
Yeah, take it from me Hugh...

You go away when the night is young  
If only you could stay then we could have some fun  
Stay out all night long

Come on little baby let me take you out of your mind  
Little choosey Susie, there's no reason to fall behind  
You and me, we're gonna be free  
We're gonna make love until we're weak  
Yeah, believe you me, choosey Susie  
You better believe me now or forever hold your peace  
After this there's no turning back  
Do you remember what happened to Lot's wife?  
You do?
