Move the Mountain

Stratovarius

Would you move the mountain Would you build that tower Would you drink the sunshine Like a wilted flower?

Would you waste that hour
If you knew this full moon would be
The last one you'd see?

Would you gaze in wonder While the world was turning While the moon made quiet All the years of yearning?

Would the flame keep burning If you knew the powers that be Could set you free?

Don't know why you had to go
In the story light, a flame in the darkness
And we'll never really know
If you'll ever see me again

Swam around in circles
In a meandering ocean
Had a dream of safety
That's lost emotion

Could a faded notion

Make you find your way back to shore
Looking for more?

So we head for safety But we never get there And I brush the shadows From a staring nightmare

On the road to nowhere Would you help me carry my cross And set me free?

Don't know why you had to go
In the story light, a flame in the darkness
And we'll never really know
If you'll ever see me again

Don't know why you had to go In the story light Oh, we'll never know Oh, we'll never really know If you'll ever see me again
