

Everybody Knows

Strawbs

When there's no other way
When there is nowhere left to turn
I'll be your runaway tonight
We'll find a hideaway
We'll let the storm clouds pass on by
While in our warm embrace we'll fly

Everybody knows
It's only love will set you free
Everybody know this time

Let love become the way
Let love caress and heal your pain
Angels will find a way tonight
And in our open ways
And in the beauty of the world
We'll find our hearts will sing with joy

Everybody knows

It's only love will set you free
Everybody knows this time

Love to live and live to love
Follow feelings from above
In fascination
We can reach elation
Take your dreams and let them go

Touch my heart and feel
The flowing river to the ocean
Such devotion
See the earth and feel the power
Have no doubt this is the hour
To stand together
In complete celebration

Everybody knows
It's only love will set you free
Everybody knows this time
