

## Forever Ocean Blue

Strawbs

Treasure each passing day  
Each hour and every moment  
This is where we belong  
Where the heart beats strong  
Should you ever feel alone - don't despair  
I'll always be around to take good care.

On lonely winter days  
We'll think of one another  
And in the darkest night  
Look for my guiding light  
And should you ever feel alone - don't despair  
We'll soon be on our way  
But who knows where.

We'll build ourselves a dreamboat  
Me and you  
Forever ocean blue

I sometimes close my eyes  
When I'm in distant places  
I see you wild and free  
Down beside the sea  
Should you ever feel alone - then don't despair  
We've got our everlasting love affair.
