

The Shape Of Other Men

Street Dogs

She when into town to earn some money
he stayed home just leaning on his gun
I think by now you know this song ain't funny,
its just the way some people get it done

She when into town to earn some money
he stayed home just leaning on his gun
I think by now you know this song ain't funny,
its just the way some people get it done
he cashed in all his lifetime earnings
and made the rounds to everyone he loved
he spread a little wealth and a kind blessing
then went home to lean upon his gun

Nobody knows the shape of other men
he could be looking well
but his life is a living hell (2x)

The sunlight comes streaming through our windows
we wake up and we try to live
to some other men that doesn't matter
they never let the sun shine in
we knew a man who had so many demons
in a sick way they became his friends
he had a wife and three beautiful children
but it did not matter in the end

Nobody knows the shape of other men
he could be looking well
but his life is a living hell (2x)

he could be looking well
but his life is a living hell
he could be looking well
but his life is hell

One day not so long ago
made up my mind to let shit go
some days it works and some days it don't
but at least now I know...
can't change the world now I know (4x)
but I can change... mine
