

# Against the Law

**Stryper**

Day after day  
I feel like giving up (yes I do)  
I lived your way Was that good enough (not for you)

You've got to point your finger  
You think you know it all  
I want you to remember  
I don't live for you  
'Cause I'm against your laws

Can you hear me  
I've just got to say (one thing more)  
I'll say it clearly  
Stay out of my way (that's for sure)

You've got to point your finger  
You think you know it all  
I want you to remember  
I don't live for you  
'Cause I'm against your laws

We've still got the fire  
Burning in our souls  
But we're just rockin' harder  
To make our music roll

You've got to point your finger  
You think you know it all  
I want you to remember  
I don't live for you  
'Cause I'm against your laws
