

God Damn Evil

Stryper

We power up the empty screen
And let the games begin
Far beyond it's poisoning
Is a special kind of sin

We open locks and break the chains
To let the devil in
We're losing all of what remains
In a war we'll never win
In a war we'll never win

God Damn Evil
God Damn it all
But God save The People
But God Damn The Walls

Self control is all but gone
The weak time after time
Take the bait and break the bond
But never pay the crime

The only saving grace is love
And we know where that lies
It's what we feel unworthy of
So we don't claim the prize
No we never claim the prize...

God Damn Evil
God Damn it all
God save The People
But God Damn The Walls

God Damn Evil
God Damn it all
God save The People
But God Damn The Walls

God Damn Evil (God Damn Evil)
God save The People (save The People)
God Damn Evil (God Damn Evil)
God save The People (God save The People)

God Damn Evil...
