

Great Stone

Sublime

under that great stone
got to move
under that great stone
got to move
from under the great stone
the stone i'm down below
from under that great stone
got to remove
sing it again
real feel real
thats how real to me
i love them
because them give out the victory
oh many people doubt it
but i cant live without
just because i love it so
its so real to me
it soon be done
all of my troubles and triumphs
when i get over
over on the other side
i wanna shake my hand with the elder
tell all the people good morning
burn my telephone trial list yes i will
aint got no style and aint got no fashion
elementary
aint got no style and aint got no fashion
aint got that style and aint got no fashion
aint got no style aint got no fashion
one thing down with your drain
the doctor loved you so well
but now that your dead
i love i love i love i love my entertainin'

i dont want i dont want i dont want i dont want no excitement
i dont want i dont want i dont want i dont want no indictment
i dont need i dont need i dont need i dont need no disappointment
oh lord god
from under that great stone got to move
from under that great stone
got to remove
from under the great stone
STONE
long time they call because you dont feel the come
i can see it when you're comin and gone
long time that you call you but you dont feel the come
are you comin when your comin and comin
whoa upon the east
whoa upon the south
whoa upon the north
this is what its all about
long time that you call you but you dont feel the come
i can see it you comin in, come
so rasta warn you
night and day i call you
mother that mother that mother that
great stone got to move

mother that great stone
got to remove
from under the great stone
STONE
