Right Back

Sublime

Sleepin by yourself at night can make you feel alone Your girl friend said so but I don't really know That don't mean we fucked around that night last week when you left town

I was tweakin by myself one night that's when I wrote this tune Didn't have no need for that bed in my hotel room Sometimes right now since I've left the pen I feel like I'm right back there again

Sometimes I pray, waiting waiting for some bright holiday So I bought myself a gun and I'm right back right back where I' m from

Sleepin by yourself at night can make you feel alone My girlfriend said so, she's a little ho That don't mean I fuck around, I like to keep that higher groun d

Sometimes I pray, waiting waiting for some bright holiday So I bought myself a gun and I'm right back right back where I' m from Don't tease me, don't tease me, don't tease Sometimes I pray, waiting waiting for some bright holiday So I bought myself a gun and I'm right back right back where I' m from
