

## My Friend

### Suburban Legends

So many days in the deep blue sea  
I look around not knowing where I'm gonna be  
I know I'm lost and I'll never find my way  
Well, I've got a friend who's gonna help me  
With his tune, he puts my life in harmony  
He told me, "One day you're gonna be someone."  
I don't see him every day  
But when I do, my cares just go away  
See my friend as swimming along (hey, hey)  
A Reel Big Fish in a tiny pond (hey, hey)  
He waves hello as he's singing his song  
My friend  
I love my friend  
(We love him!)

So rad, he makes me feel so good  
Everybody knows he's the boss of the neighborhood  
He's got my back, so everything will be alright  
(alright, alright, alright)  
Don't be stoops  
Selling out is not an option  
Even when the Forces of Evil, they be watching  
That's what he said, "Someday you're gonna be someone."  
(You're gonna be someone)

Everybody get out of the way  
My friend showed up, he's got something to say
