

## Silent Rain

Suburban Tribe

When hope is lost  
when it all comes down  
when hope is lost  
love turns to hatred  
save me  
when there is no escape  
when my back's against the wall  
when there's no escape  
love turns to hatred  
save me  
won't you save me please  
silent rain  
the silent rain will set us free and wash away the pain  
the silent rain  
when I've seen too much  
when I feel all bruised and blue  
when I've seen too much  
love turns to hatred
