All the lonely people crying
It could change if we just get started
Lift the darkness, light a fire
For the silent and the broken hearted

Won't you stand up, stand up, stand up? Won't you stand up, you girls and boys? Won't you stand up, stand up, stand up? Won't you stand up and use your voice?

There's a comfort, there's a healing High above the pain and sorrow Change is coming, can you feel it Calling us into a new tomorrow?

Won't you stand up, stand up, stand up? Won't you stand up, you girls and boys? Won't you stand up, stand up, stand up? Won't you stand up and use your voice?

When the walls fall all around you When your hope has turned to dust Let the sound of love surround you Beat like a heart in each of us

Won't you stand up, stand up, stand up? Won't you stand up, you girls and boys? Won't you stand up, stand up, stand up? Won't you stand up and use your voice?

Won't you stand up, stand up, stand up? Won't you stand up, you girls and boys? Won't you stand up, stand up, stand up? Won't you stand up and use your voice?

Won't you stand up? Won't you stand up, stand up, stand up? Won't you stand up and use your voice?
