

## Come Down With Me

### Suicide Commando

Can you believe what I've done  
I killed them all, one by one  
Can you believe what I hear  
I hear a voice "Kill everyone"  
Can you believe what I've seen  
I've seen the devil throw down a key  
Can you believe what I feel  
I feel the rage that poisons me

Come down with me  
And see the murder all over me  
Come down with me  
And see the world collapse  
Come down with me  
And see the thoughts all over me  
Come down with me  
And feel the pain inside
