

Neuro Suspension

Suicide Commando

Time to leave this life behind
To leave this state of mind
To save their world
And leave this hell

Fear now that the end is near
There's no way out of here
Now that you're dead
Came way too near

Neuro suspension - eternal life extension

Time to make your final prayers
To breach this spoil of death
There's no return
Don't let me burn

Fear now that the end is near
There's no way out of here
Now that you're dead
Came way too near

Neuro suspension - eternal life extension

Time to leave this life behind
To leave this state of mind
To save their world
And leave this hell

Fear now that the end is near
There's no way out of here
Now that you're dead
Came way too near

Neuro suspension - eternal life extension
