

What's temporary? Me or you?
You want me here to stay
But your situation tell me that it's
A waste of time
But never mind all that, mmm
Boy, I'm serious
You know you don't have to play
I'm already on the way
You ain't gotta say shit

So, he set the mood on some love, shit
Made a couple jokes about fucking, yeah
Had a kiss few times but never made a move
On no courage shit
Just enjoyed the time that we had
Laid beside ya, be numb in

All alone, we turned off our phones all the way
Your girl driving your ass insane
And you know my nigga don't play shit

I say, "Babe, what we gonna do?"
And you say, "We'll have our cake and eat it too"
So, our cake it and eat it too
Oh yeah, our cake and eat it too, too
Our cake and eat it too

It's not the right time but
You say the timin' is perfect
You want me to ride for you
On you, with you, my babe
You want me to lie
Say, "No, I haven't seen this guy"
We doin' the most
Takin' pictures you know we can't post
Can't post, no, no, no, no, no

All alone, we turned off our phones all the way
Your girl driving your ass insane
And you know my nigga don't play shit
