

Tonight

Summer Walker

You're searchin' this body of mine
You wanna be a good friend to me
Why don't you pour up that Hennessy?
Light up a few blunts and we can get high, yeah
No need to rush, we'll take our time

I know it's been too long
I've been on the road too much
Had to get back to you
Back to you
Can't even play it cool thinkin' about them nights I could've really be with you

Tonight
I wanna have some good fun tonight
I wanna get in a song tonight
I just wanna make up for lost time
I like to taste it when you
Run down my back
I can't relax
Oh, touch me like that
Please, nice and slow

I know it's been too long
I've been on the road too much
Had to get back to you
Back to you
Can't even play it cool thinkin' about them nights I could've really be with you

Tonight
I wanna have some good fun tonight
I wanna get in a song tonight
I just wanna make up for lost time
Tonight

(I know it's been too long)
(I've been on the road too much)
(Had to get back to you)
(Back to you)

(We got London on the track)
