

# Afraid Of The Midnight

Sunrise Avenue

Don't be afraid of the midnight baby  
Don't go running scared  
Don't be afraid of the midnight baby  
You're not the only one out there

Coming out that lonely time  
Running up and down your spine  
Darkness doesn't jump on you  
Nothing else inside the room  
But incremenading truth  
Silences like a sunny booth

Don't be afraid of the midnight baby  
Don't go running scared  
Don't be afraid of the midnight baby  
You're not the only one out there  
You're not the only one

Just because you cannot see  
Cause its a mystery  
Doesn't mean its out to hurt  
You don't know the strength you have  
Till you face your demons down  
Everybody has that course

Don't be afraid of the midnight baby  
Don't go running scared  
Don't be afraid of the midnight baby  
You're not the only one out there  
You're not the only one  
Ohhhhhh

Don't be afraid of the midnight baby  
Don't go running scared  
Don't be afraid of the midnight baby  
You're not the only one out there  
No  
You're not the only one  
No, no, no  
Youre not the only one oiut there baby  
Youre not the only one

Dont be afraid of the midnight baby
