

# Letters In The Sand

Sunrise Avenue

Time to see this for what it is  
Bite the bullet and take the hit  
I though it was but it wasn't our turn now  
All I can do is just let it burn, baby

After all I was no angel  
Now you speak a code that I don't know  
Or can untangle

Like letters in the sand, there's gonna come a wave  
It washes you away from me like letters in the sand

There was no anger, no cries out loud  
Like the tide we just ran out  
It was a lesson that I had to learn  
All I can do is just let it burn, baby

After all I was no angel  
Now you speak a code that I don't know  
Or can untangle

Just like letters in the sand, there's gonna come a wave  
It washes you away from me like letters in the sand  
Like letters in the sand, there's gonna come a wave  
And it washes you away from me like letters in the sand

Lie with me here for a while  
Please lie with me for a while  
Lie with me here for a while  
Please lie with me

Just like letters in the sand, there's gonna come a wave  
It washes you away from me like letters in the sand  
Like letters in the sand, just like letters in the sand  
It washes you away from me like letters in the sand

Like letters in the sand
