

I took out the clothes I wore one year ago  
Bought flowers that made you smile  
Throughout four seasons that we spent together  
We're resembling each other now

My voice is trembling so much  
I can't even pronounce my words  
I'm trying to confess once more  
My heart is pounding  
Like that dream-like day before

Let's start (I do) Baby  
With the trembling I felt when I first met you  
With the butterflies we felt  
By just our fingers touching  
I promise you (I do) Baby  
Even if countless days push against us  
I'll go back to that day and hold your hand  
Even when countless tomorrows come, forever I do

Like the lyrics of a certain song  
I swear to you until your hair turns white  
Even when it snows and rains, I'll love you and protect you  
They say long-time lovers grow apart  
But it's been one year and we can last forever  
Even if the sun rises from the west

Our calendar was filled up  
Throughout the year  
Another day has been added  
But we're just like the beautiful days in the pictures

Let's start (I do) Baby  
With the trembling I felt when I first met you  
With the butterflies we felt  
By just our fingers touching  
I promise you (I do) Baby  
Even if countless days push against us  
I'll go back to that day and hold your hand  
Even when countless tomorrows come, forever I do

The falling sunlight is sweet, well it's you  
Even the wind wraps around us  
Everything is perfect today

Just like this (I do) Baby  
At the end of this long day  
Right in that moment  
Next to me, on my left hand, be with me forever  
Eternally (I do) Baby  
I'll promise my heart to you  
Even if another year passes  
I'll love you without change, forever I do
